About DSC Next Conference

Who we are?

At DSC Next 2025, we strongly believe that the field of data science thrives when innovative minds come together on a common platform. We see ourselves as facilitators of this collaboration, committed to giving back to a field that has driven tremendous growth and transformation across industries.

Following the success of our previous events in London, New York, Singapore, and Dubai we are excited to host our 1st edition of DSC Next in Amsterdam from May 7th to 9th, 2025, where leading experts and professionals in data science will converge to exchange ideas, insights, and the latest advancements in the field.
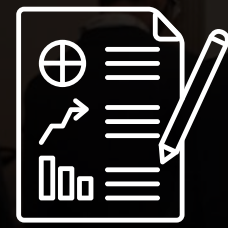

The DSC Next 2025 aims to bring together 500+ leaders in data science, including professionals from AI-driven startups, tech giants, academic institutions, financial services, healthcare, and government organizations. Alongside these companies, we also anticipate the participation of C-level executives from various industries who are keen to explore the transformative power of data science and AI.

The conference is meticulously designed to offer secure and impactful opportunities for education, networking, and fostering collaborations between solution providers and data science professionals. Our industry experts will share cutting-edge insights on emerging trends and how the latest innovations in data analytics, machine learning, and AI are revolutionizing sectors across the globe.

WHAT IS
#DSC NEXT?

A platform that bridges the gap between traditional industries and the rapidly evolving world of data science and AI.

A conference for thought leaders with handpicked speakers for the maximum benefit of everyone attending.

A knowledge sharing event that helps you prepare your company for the future.

A grand exhibition for you to increase visibility to the right people.

Networking opportunity like no other!
